

## **Position for: Electrical Engineer at Larnaka International Airport**

Chapomed Ltd, a specialist Electrical and Mechanical Engineering company, is currently seeking to employ a skilled Electrical Engineer to join a well-structured team at the Larnaka Airport site.

The ideal candidate will be responsible for Project and Major Maintenance Works at Larnaka Airport. The Electrical Engineer shall be in charge of designing, developing, and overseeing the installation of electrical systems, ensuring they meet quality, safety, and performance standards. He will also be responsible for major maintenance at the airport.

The Electrical Engineer will collaborate with project and maintenance teams, conduct feasibility studies, prepare technical drawings, and provide expertise in troubleshooting electrical issues. The role requires an extensive understanding of electrical engineering principles, proficiency in relevant software/tools, and a commitment to delivering projects within specified timelines and budgets.

### **Responsibilities:**

- Carry out electrical design, develop, and oversee the installation of electrical systems and components at the airports.
- Prepare technical drawings, specifications, and reports related to electrical systems.
- Conduct cost analyses for proposed projects and provide quotations to the clients.
- Ensure compliance with safety standards and electrical codes/regulations.
- Troubleshoot electrical issues and provide effective solutions.
- Lead teams of electricians

### **Requirements:**

- Bachelor's degree in electrical engineering.
- Over four(4) Years of experience in similar position will be an advantage
- Registered Electrical Engineer at the Electrical and Mechanical Services Department.
- Licensed member of the Cyprus Scientific Technical Chamber (ETEK).
- Proven experience in electrical engineering, preferably in project design and implementation.
- Proficiency in electrical design software/tools (e.g., AutoCAD, MODECSOFT (Electrical OM), etc.).
- Excellent knowledge of English language.
- Excellent knowledge of Microsoft Office
- Strong knowledge of electrical codes, standards, and latest regulations.
- Excellent problem-solving and analytical skills.
- Effective communication and teamwork abilities.
- Attention to detail and ability to manage multiple projects simultaneously.

### **Benefits:**

A Competitive Package will be given to the selected Candidate.
