Title :	Building hardware - Burglar resistance - Complement lockable hardware for windows and door height windows - Requirements and test methods		
Scope :	Scope		

This standard includes complement lockable hardware including lockable espagnolettes handles windows and door height windows. This standard includes requirements and test methods and classes and guidance on marking.

The standard includes complement lockable hardware primarily for windows and door height windows with a common distance between the forend and locking plate.

The standard includes complement lockable hardware and complement lockable handles to be mounted and where the complement hardware only can be maneuvered on the inside of the window or door height window.

The complement lockable hardware in this standard is for locking of window or door height window in a closed position.

NOTE:

For complement lockable hardware och complement lockable handles to be maneuvered from the outside, requirements for Class 3 in SSF 3522:2015, edition 1 apply.
